

2019-05-03 TF MWG Meeting

Date

03 May 2019

Attendees

- Maddison Long
- Jim St Leger
- James Kelly
- [Edward Ting](#)
- Tim O'Driscoll

Agenda

- Review action items from [2019-04-26 Marketing Meeting Notes](#)
- Carbide refresh and user guide
- Competitive matrix in the docs

Minutes

LFN Mini-Summit (May 20, Barcelona)

- Edward Ting had submitted a TF talk
- Sukhdev to write a blog post

5.1 TF Release

- 5.1 Release for Contrail is imminent, likely happen Monday
- Need to know what build, trigger build within TF repo, post images on Docker hub, etc.
- 5.1 is not very feature rich.
- The largest benefit is release quality. Juniper closed more than 1600 bugs (top three level of critical bugs)
- Container service chaining is a cool new feature, evpn across data centers (between routers), etc.

Cloud Native Day in Canada

- No specific TF talks at this point, talks are still being finalized

LFN Store

- What's the uptake in terms of traffic on the LFN store?
- Would be good to get TF shirts/stickers, etc. up there. Promote it via TF website.

NCDC

- What TF deck, swag should we have at this event?

On-Demand TF Environment

- Maybe Cloud.ca /CloudOps would be interested in sponsoring a TF event by providing IaaS and on-demand K8s + TF environment?
- Community should look to update and improve the Carbide user guide

Competitive Matrix in the Docs

- Comparing and contrasting TF with other LFN projects like ODL

Action items

- ☐ Jill will reach out to Le Ma about NCDC & ask about deadline
- ☐ Jill will follow up with Brandon about the store
- ☒ James Kelly Move blog ideas to Blog Publishing Calendar
- ☒ James Kelly Ping Sukhdev about blog post
- ☒ Edward Ting to send Jim NCDC invite and information
