    - RLB: Need to make this easy to Juniper folks will be more likely to engage
    - SK: Have a spreadsheet for this but not sure where it is
    - https://drive.google.com/drive/folders/0AM-bGoKiRBuTUk9PVA old TF Google Drive
        - Please don't use that for new docs. It's just for reference.
    - VMB: This is still overkill and reinventing the wheel
- Question: By the end of the DDF, can we determine what the projects are going to be?
    - SK is trying to find the doc where these were laid out (action item for this)
    - SK will also find the spreadsheet which maps out repo to committers
