Draft: R2011 Known Issues - Nov-23-2020

The purpose of this document is to give insights into the incoming release of R2011. The list will change and should not be treated as final.

Priority	Summary	Status	Components	Updated	Issue key
P0	Heat stack fails with error "Port requires a FixedIP in order to be used. (HTTP 400)"	In Progress	Feature Test Automation	11/23/20	CEM-19174
P0	[2011]juju contrail-command import of kubernetes cluster failing	In Progress	Deployment - Command	11/23/20	CEM-20449
P0	ZTP onboard of fabric interfaces is failing	Ready For Review	Fabric - Device Configuration	11/22/20	CEM-20524
P0	Openshift4/Contrail Operator: Provisioning fails sometimes due to docker rate-limit	Open	Deployment - OpenShift	11/23/20	CEM-20528
P1	vxlan_network_identifier_mode reset to automatic during controller reboot	Ready For Review	Command App Server	11/22/20	CEM-18489
P1	CLONE - Openshift4/OperatorFramework: contrail WebUI showing config node status Down	Needs Information	Contrail Config	11/18/20	CEM-18913
P1	[2008.121]ISSU: Tables under dm_keyspace not synced during ISSU	Ready For Review	Contrail Config	11/19/20	CEM-19354
P1	Kolla: Add cloud-admin role to admin user in admin tenant if CLOUD_ADMIN_ROLE is specified in contrail_configuration	Needs Information	Contrail Config	11/19/20	CEM-20016
P1	CLONE - Openshift4: when one of HA Master nodes failover (or) vrouter restart, CNI functionality broken	In Progress	Deployment - OpenShift	11/23/20	CEM-20041
P1	ironic notification manager can't work with keystone over SSL	In Progress	Deployment - Ansible	11/20/20	CEM-20129
P1	Openshift4: contrail-status not working	In Progress	Deployment - OpenShift	11/23/20	CEM-20209
P1	fragmented packets getting dropped in vrouter, fragment error increments in the dropstats	In Progress	vRouter Kernel Module	11/23/20	CEM-20268
P1	DCI with IBGP in a erb topology , route reflector configuration is not getting pushed to DCI gw devices	Ready For Review	Fabric - Device Configuration	11/19/20	CEM-20272
P1	CVFM : physical_interface_backrefs are not created if the bms_switch_info has device with domain name	In Progress	CVFM plugin	11/19/20	CEM-20308
P1	Ping to AAP fails from compute node for E:1 path selection with gatewayless forwarding enabled	Open	vRouter Agent	11/22/20	CEM-20322
P1	vrouter goes down after deployment in juju	Open	vRouter Agent	11/23/20	CEM-20388
P1	Openstack network list with share options doesn't work	Ready For Review	API	11/23/20	CEM-20393
P1	Endpoints changed on reboot of command node	In Progress	Command App Server	11/23/20	CEM-20414
P1	EVPN-Type5: port mirroring not working when VN is added to LR	Open	Contrail Control Node	11/22/20	CEM-20421
P1	Unable to ZTP onboard a fabric with multiple management subnets	Needs Information	Fabric - Underlay	11/22/20	CEM-20445
P1	[rh issue] FFU upgrade failed on dpdk node. RedHat driver uio-pci not working properly	In Progress	Deployment - RHOSP	11/19/20	CEM-20468
P1	MAC/IP: traffic drops between the pods with tag based policy association	Open	vRouter Agent	11/22/20	CEM-20529
P1	route target is not changing when global asn is changed	In Progress	Contrail Config	11/22/20	CEM-20544
P1	BMS-VM intra-VN ping fails	Open	Fabric - Overlay	11/23/20	CEM-20557
