Minutes

- Meetup Opportunities:
 - Kubernetes & CNCF Bulgaria - 2/28 -
 - Couldn't find a speaker for this one
 - Prague Containers Meetup
 - Willing to have us there, but trying to find a speaker
 - Cloud Native London - service mesh
 - More interested in service mesh than hands-on lab
 - Canada
 - Maddison working to find something in 3 different cities
- TF meetups merged with OSNUG under LFN leadership
 - Chaitanya working with the local groups
- Service Mesh Day
 - SF on March 27: <https://www.servicemeshday.com/2019/about.html>
 - Interesting event & hot in cloud native space
 - Juniper got approval to sponsor it
 - Run a demo
 - Bring TF t-shirts and stickers
 - Maybe get a Carbide variation that includes Istio?
 - Looking for community devs who are familiar with Istio
 - Will talk to Randy about getting Alex's team to look at this
 - CFP is open until March 01: <https://www.papercall.io/smd>
 - James will have more info in 2 weeks (on vacation next week)
 - Need to get a lab set up for the demo
- FYI... Randy Bias briefed Roy Chua of AvidThink (SDxCentral analyst arm) yesterday re: TF overview
 - Overview of TF; project and Carbide
 - He was interested and engaged; good briefing
 - No specific follow up items
- Documentation WG
 - Unsure what's going on with it
 - Edward wishes to discuss with TSC
 - Redefine role
 - Current: create release notes & guides
 - New...?
 - Much for TSC to discuss & decide

Action Items

- Update tungsten.io/community lists for marketing MG and TSC Governance WG
- Revive demo with Istio for the Service Mesh Day in San Francisco on March 28-29, 2019 - <https://www.servicemeshday.com/2019/about.html>
- VMB will email Randy & Maddison about getting a Carbide-ish lab set up for Service Mesh Day
