6.21 Day-2	AM	Workshop	Workshop	Workshop	Developers Tutorial
	PM	Workshop	Workshop	Workshop	Developers Tutorial

Plenty of international projects technical charges have a dialogue at the same stage for the first time, meeting of minds, with Q&A session, and discuss about hot issues, with trend forecasting.

- Competition and cooperation among international organizations
- Development and win-win between projects
- Current situation of developers under the trend of network softwarization
- Developers' contributions and rewards
- The future of networking and computing
- A golden era for developers

## Panel : The Golden Era for Developers

## Booth Talk: Face to Face with Top Experts

All the experts from the participated international projects, manufacturers' technical representatives will demonstrate with Demo and explain intensively at their own exhibition booth after the keynote speech in the first day of the conference.

Popularity up - The Conference will adopt "stamps collection" and other activities to attract audiences to visit all the booths, and whoever collects all the stamps is entitled to participate the lottery drawing for "the night of developers".

# Party all night!

## The Night of Developers

Best DJ and band;  
Unlimited delicious food and drinks;  
Technical experts from diversified organizations and projects talk with you  
Well-known worldwide enterprises share their most IN products with you  
Hundreds of developers toast together;  
Endless development, everlasting home party!

An era for developers, do you still suffer from not knowing international hot projects?

Version changed, and you are trapped in the old version and cannot find a way out?

Deliver an overall, systematic, specific developer training based on the newest version of numerous development projects. The projects technical experts will teach in person. Create a best platform on learning, sharing and social life for both the new and old developers.
