

2019-08-09 Marketing Meeting

Date

09 Aug 2019

Attendees

- VM Brasseur
- Robert Cathey
- Edward Ting
- Lisa Caywood

Agenda

- Review action items from [2019-08-02 Marketing Meeting notes](#)
- Any interest in participating in a possible Data Plane event next year? DPDK is looking to expand it's summit and include other data plane projects, including TF (also FD.io, OVS).
- Web update mockups?
- Positioning update
- LFN MAC update
- Events:
 - Intel Developer Day, Oregon, 9/5. (Intel Innovator <https://devmesh.intel.com/projects/multi-vendor-sdn-controller-based-on-tungsten-fabric>)
 - Invitation to <https://devopsstage.com>, Ukraine, 10/18-19.

Minutes

- DPDK event?
 - VMB: is this a dev event or a marketing event?
 - LC: This tends to be both, but marketing side is mostly to inform vendors
 - VMB: Prabhjot has been doing a lot of dpdk work; pretty sure they'll be +1 on this but need more info
- Web update mockups?
 - Does LF need more info from us to get this started? If not, what's the ETA?
 - No Jill, so will have to ask about this
- Positioning update
 - Darien has added his info to the positioning document
 - LC has had a conversation w/Sukhdev
 - Next week LC will try to integrate Randy, Darien, & Sukhdev's input
- LFN MAC update
 - Kicked off planning for next budget cycle
 - What does TF want to do from a marketing perspective for 2020?
 - Funding for DDFs?
 - Contractor to help with tech marketing?
 - VMB: Timing on this discussion?
 - LC: Need to finalise by November
 - Will need to coordinate with the TSC as well, naturally
 - Process
 - Projects send over asks
 - LFN then reconciles the asks
 - Get budgets by November
 - Last year board wanted digital marketing prioritised
 - Devs didn't like this; wanted events instead
 - This year, board stressed that less money be spent on events
 - So there'll be more focus on digital marketing
 - Expected funded events:
 - ONS, Kubecon, that's it
 - Booth, sure, but also could be joint working sessions, etc.
 - VMB: where to start with this process? Wiki page to gather ideas, or...?
 - LC: Start discussing strategic goals for the project for the next year
 - VMB: List exists: [2019 TSC Priorities](#)
 - Little progress for 2019, so most will probably roll over for 2020
 - VMB: Next step?
 - Add this to the tsc@ agenda (VMB will do)
 - RC: If given list of projects to compare against, can audit & discover what stuff converts best
 - LC: Yes, this would be awesome, +1
- Events
 - Sept 5: Intel developer day
 - ET working on a project for this
 - Want to write something about it?
 - VMB: Yes, please

- ET: OK, working on demo this week, will report back next Friday & figure out what to do with it
- Oct 18-19: Event in Ukraine
 - Invite from Ivan
 - Have little information besides link above
 - 500 participants, 45 speakers, 2 days, 4 streams
 - Want us to give a presentation
 - VMB: Toss this to dev@ to see whether anyone's able to participate

Action items

- [Lisa Caywood](#) Follow up with Jill to get more info about the DPDK event (if Jill isn't able to join the call)
- [Edward Ting](#) Follow up next week about Intel dev day
- Edward Ting Toss the Ukraine event to dev@ to see whether anyone's able to participate
