

# 2019-06-12 Docs Project Meeting

## Date

12 Jun 2019

## Attendees

- VM Brasseur
- Tatsuya Naganawa
- Will Stevens
- Daniel Pono Takamori

## Agenda

- Review action items from [2019-06-05 Docs Project Meeting](#)
- Review [Docs Jira tickets](#)
- tf/docs is on Gerrit now!
  - We need to update GH tf/docs to point to Gerrit, then get a read-only bot set up
- Update on <https://github.com/tungstenfabric/tf-transitional-contrail-docs/>
  - For reference: [Docs De-Contrailization Style Guide](#)
  - How to make this content up to date?
    - reviewing docs, I noticed features of some contents are not applicable to 5.x release :(
  - for example, this feature is for 4.x and not available in 5.x
  - <https://github.com/tungstenfabric/tf-transitional-contrail-docs/blob/master/doc/getting-started-guide/contrailctl.rst>
- Recruiting for the team!

## Minutes

- pono: did you get invites to join the docs committers group?
  - swill: yep
- **action items:**
  - casey updated calendar entry
  - vicky to reorg repo now that voting rights are in place
- **Jira tickets (new):**
  - <https://jira.tungsten.io/browse/TFB-1417>
    - vicky to document current manual CLA process
  - <https://jira.tungsten.io/browse/TFB-1413>
  - just do the thing 🍌
  - create a ticket before gerrit work
    - link to LF releng gerrit guide: <https://docs.releng.linuxfoundation.org/en/latest/gerrit.html>
  - CLA link is a relative URL instead of absolute in gerrit
  - <https://jira.tungsten.io/browse/TFB-1418>
    - epic for cla stuff
- **docs are in gerrit!**
  - added members to repo
  - need to look at bots for redirecting people to gerrit instead of PRs
  - Pono: Did TN receive an email to be core on the repo?
    - Nope, will drop LF ID into chat & Pono will send invite
- Contrail transitional docs
  - TN: Some of the contents are applicable to 5.x
  - Example: this is for 4.x and not 5.x
    - <https://github.com/tungstenfabric/tf-transitional-contrail-docs/blob/master/doc/getting-started-guide/contrailctl.rst>
    - vicky: who knows what's current and what's not?
      - 5.1 docs status
      - 5.0 docs were exported from xml docs and now we are working on the same thing for 5.1 docs
      - need to work with juniper docs team so we can update the TF docs inline with contrail
      - communication is slowed because docs people are currently getting onboarded
      - will have another conversation with docs team at juniper in july
      - try to negotiate another .zip dump for the 5.1 docs
      - **should be able to go through the 5.0 docs and flag what isn't current**
      - feel free to just open a ticket instead of straight up fixing
    - general update:
      - 2 PRs in waiting
- **call to arms for new community members to ease intro by joining docs team!**
  - new RedHat friend 🍌

## Action items

- [VM Brasseur](#) Reorg the tf/docs repo according to the Jira ticket
- [VM Brasseur](#) Create ticket to make sure we reference the [LF Gerrit docs](#) in our contribution docs
- [Daniel Pono Takamori](#) investigate relative URL issue in gerrit
- [Daniel Pono Takamori](#) add linking against Jira to gerrit guide
- [Daniel Pono Takamori](#) probot robot for redirecting to gerrit
- [Daniel Pono Takamori](#) Send invite to TN's LF ID: @TatsuyaNaganawa
