Past meeting notes

- [2020 Docs Meetings](#)
- [2019 Docs Meetings](#)

Future agenda items

- Planning hackathon in Sunnyvale (training for Juniper Tech Pubs folks & others)
- TF Transitional Contail docs: <https://github.com/tungstenfabric/tf-transitional-contrail-docs>

Backlogged action items

- ????: Get rid of community-docs repo (it's superfluous) do this after all of the repos are moved
- Current locations of all documentation: Defer until after the infra move is complete
- Current CI/CD status of documentation: Defer until after the infra move is complete
- Patch approval criteria for docs: Defer until the TSC confirms the process for code.
- Add a 'must have docs' requirement for marking blueprint/feature development as complete
- Review wiki & move some of the docs to the repo after the repos are moved
