Introduction

The goal of this project is to provide documentation for Tungsten Fabric open source project.

The documentation should cover topics as:

- Why Tungsten Fabrics (TF) exist?
- How to install TF?
- How to deploy TF?
- How to use TF?
- How to contribute code to TF?
- How to contribute documentation to TF?
- What is the governance structure for this open source project?
- What are the internal processes and workflows in this open source project (for example CI)?

Documentation & Training

This wiki section contains information about the processes and workflow of the Documentation project.

Guidelines for becoming contributor, writing documentation, and manuals can be found here: <https://docs.tungsten.io>
