Blog Publishing Calendar

The Marketing Working Group aims to have at least one blog post published every month.

To propose a post:

1. Add your idea to the "Post Ideas" section below
2. Email marketing@lists.tungsten.io to let them know and to start the discussion.

To submit a post:

1. Write it in whatever format you wish, but please submit it as a shared Google Doc or as Markdown.
2. Email a link to the draft to marketing@lists.tungsten.io to let them know it's available.
3. The Marketing team will edit it (if needed) then get Linux Foundation to publish the post on our WordPress installation.

Post Ideas:

- Easy ideas:
  - Convert content from docs census:
    - Will Stevens + VM (Vicky) Brasseur (she/her) documentation census
      - Docs Census
  - GitHub / Gerrit Migration status (Part 2)
  - Original Cloud Native Summit Presentations
- Harder ideas:
  - TF and EKS integration
    - https://www.juniper.net/documentation/en_US/contrail20/topics/task/installation/how-to-install-contrail-aws-eks.html
