- [Casey Cain](#)

Agenda

- Greetings to Tatsuya!
- No action items from last week
- [Docs Census](#)
- Quick opencontrail.org update
- Review [Docs Jira tickets](#)
- Discussion on how CLA worked for you
- Update on move to Gerrit
- Contrail 5.0 docs
 - <https://gerrit.tungsten.io/r/c/docs/+19>
- <https://gerrit.tungsten.io/r/c/cla-testing/+18>

Minutes

- Welcome Tatsuya Naganawa!
 - Bring with them a getting started doc
- Docs Census
 - swill has gotten a start on it (In no way complete)
 - Listing docs already on the site
 - Calling out spots that are unclear
 - Noting the mix of TF & Juniper assets
 - Trying to get some insight into this
 - VMB suggests that maybe Tatsuya may have great insight into that
 - swill: If Tatsuya could share links, that would be great
- CLA stuff is still a mess and we need to schedule another time to talk about it
 - CLA stuff is **not** a Docs team problem until we have a process that we can document
 - We will **not** be resolving or defining that process in this team
- opencontrail.org update
 - Will be shut down soon, redirects
- Skipping review of docs Jira tickets
- Update on move to Gerrit
 - Pono has cloned the docs repo & squashed the commits
 - Initial docs import to Gerrit:
 - <https://gerrit.tungsten.io/r/c/docs/+19>
 - Need a +2 to merge this
 - Need voting members for that. 😞
 - Gonna get voting members nailed down by next week
 - Once that's done and the patch is merged, we'll definitely be done moving to Gerrit (woo!)
- Contrail 5.0 docs:
 - converted docs to .rst
 - sat for a year
 - how to put into TF docs?
 - maybe just a dump of the existing contrail docs
 - better than nothing
 - for 5.0 not 5.1
 - The Great Find and Replace: s/opencontrail/tungstenfabric
 - Will: putting on github so we can use PRs to fix up sounds good
 - Vicky: available <https://github.com/Juniper/contrail-docs> under Apache
 - Find and replace will be tough due to overuse of contrail
 - Casey: 80% quick solution with find and replace
 - Vicky: Lots to go through, how best to break up work?
 - Take a look at the repo for next week
