- General Topics

Minutes

- [Casey Cain](#) : Quick LFN announcement
 - Phil Robb leaving LFN effective tomorrow
 - Shouldn't be any change for the community
 - Casey needs to drop now (in Stockholm for DDF)
 - Slack best way to reach him for now
- Don't have quorum today; won't be making any decisions
- VMB to [Rudra Dubey](#): Abhijeet can't make it; hand seat to you?
 - RD will talk to Abhijeet
- **TF Deprecation Policy**
 - darien: going through 5.1 docs, looking for deprecated features and setting a policy going forward
 - any ideas on what/ how to codify deprecation policy?
 - prabhjot: examples?
 - darien: mesosphere no longer supported by Juniper?
 - Do we want to pick this support up in the community? Let it go?
 - PS: SK, background on this from Juniper POV? Is Mesosphere deprecated going forward?
 - We're looking for general policy around deprecation, not rat hole on this Mesosphere issue
- Release notes?
 - Do we have these?
 - No, we do not AFAWCT
 - Usually have these, but don't seem to have them this time
 - Theoretically release notes include known issues, but as there aren't any there is no need for release notes
 - Blog is about all we have:
 - <https://tungsten.io/introducing-tungsten-fabric-5-1/>
 - Used to have a Launchpad link that would show all of the issues closed in a release; have that in Contrail Jira?
 - SK: Working to figure out how to deal with three Jiras
 - Commercial Contrail
 - Open Contrail (trying to do away with this in favor of TF Jira but snags w/internal Juniper processes)
 - TF

- SK: Used to get this info backchannel via Paul Carver at ATT; maybe Rudra can help?
- Talk of issue trackers
 - 3 Jiras (see above)
 - Launchpad contents moved to TF Jira
 - How to correlate LP tickets with TF Jira tickets?
 - Text search
- Community SLA & metrics
 - Randy's not here to introduce the doc
 - Suggestion to review & take offline, add to next week's call
- Build & release process
 - Don't have quorum, can't approve
 - Discuss next week
 - PS will be on the Infra call to discuss with CI/CD team
- DH: Question on the CLA process
 - Need authorization...?
 - Will email VMB

Action items
