Proposed talks (of which we're aware)

Kubernetes Network Service Function Chaining using Tungsten Fabric vRouter for OpenStack or VMware

Proposed by: Intel (ETing)

Description: We have a proposal "Kubernetes Network Service Function Chaining using Tungsten Fabric vRouter for OpenStack or VMware." This is a customer use case who wants to bring Kubernetes workloads into exiting OpenStack or VMware clouds leveraging production VNFs.

Integration of Tungsten Fabric with OpenStack

Proposed by: Codilime/Juniper

Description: "Integration of Tungsten Fabric with OpenStack" - Krzysztof Kajkowski (CodiLime) & Sukhdev Kapur (Juniper Networks)

Seamless transition to CNFs with Tungsten Fabric

Proposed by: Codilime

Description: "Seamless transition to CNFs with Tungsten Fabric" - Jaroslaw ukow & Magdalena Zaremba (both CodiLime)
