

# 2019-07-02 Infra WG Meeting notes

## Date

02 Jul 2019

## Attendees

- [Daniel Pono Takamori](#)
- [VM \(Vicky\) Brasseur \(she/her\)](#)
- [Martin Mailand](#)
- [@andrey](#)
- [@gary greenberg](#)
- [Casey Cain](#)

## Agenda

- Review action items from [06-25 Infra WG Meeting notes](#)
  - no action items 6-25
- Review [Infra Jira tickets](#)
  - no new ones since 6-25
- Update on CI/CD
- Update on repo move

## Minutes

- No new action items or infra tickets to review
- Gerrit
  - Looking OK
  - Ran into docs snag: no tests for code verification
    - Manually submitting verified label, which is suboptimal
    - Eventually may want to get this set up if we want tests in zuul for docs
  - Aside from that appears to be working
    - zuul is connecting to it (maybe just tests)
- CI/CD updates
  - Still blocked on Carlo for repo move
  - Working on long build times
  - New zuul works well, sometimes better than old zuul
  - Working to get more test coverage while waiting for Carlo
- Repo move
  - Carlo on PTO, so waiting for him to return
- Jira workflows
  - Need a lot of work
    - Lots of 'Fix Verified' but can't close them
    - Will work on that, at least
  - Sukhdev will have some new workflows, so we'll do a big workflow update after we get those (it'll be a while)
  - Casey will also add a better dashboard (will also take a while)
- Nice short meeting, woo!

## Action items
