- Update on gerrit changes
- Stats server

Minutes

- No AIs or Jiras to cover
- Gating Gerrit to require issues
 - Pono has a change that he's debugging
 - Will look for a way to mention this on gerrit itself if possible
- stats.tungsten.io
 - Collecting server for metrics
 - The server isn't yet deployed, also not switched on at the end user side
 - Design/development docs exist for the "phone home" feature, but no user docs yet
 - <https://docs.google.com/document/d/1IcyXOo4PAN1wqSc64YIq1tVQXWJHBNi6nkkG7vpu1L0/edit#heading=h.5518josfhdod>
- Updates on CI/CD
 - It works and better than Juniper one
 - Faster
 - Does Helm checking
 - zuul-tf
 - Should get to reasonable test times in a few weeks
 - Live now (but not voting yet)
 - As soon as repos are moved, should be able to swap to this
- Repo move
 - Carlo is back!
 - VMB & Randy will speak w/him in Sunnyvale this week
