2019-08-06 Meeting notes

Date

06 Aug 2019

Attendees

- Daniel Pono Takamori
- Casey Cain
- Andrey Pavlov
- Alex Levine
- Gary Greenberg
- Jakub Bielecki

Agenda

- No action items or new tickets to review
- Rescheduled Jira consultation
  - TBD
- Update on gerrit.tungsten.io gating
- Update on Zuul

Minutes

- **Rescheduled Jira consultation**
  - Waiting on Sukhdev Kapur to schedule another meeting this week
- **Update on gerrit.tungsten.io gating**
  - Gate in place, requires an 'Issue-ID: TF-###' in commit body
  - Daniel Pono Takamori will add docs
- **Zuul**
  - Alex: got greenlight from Marcus to start moving to new zuul
    - still pointing at reviews.opencontrail.org
- **LF analytics**
  - Casey: no public beta at the moment
    - **SUPER BETA:** https://dev.lfanalytics.io/projects
    - new features coming
- **Putting meeting on hold**
  - Will check with TSC and TWS groups to see if we need this meeting with everything else going on
  - Alex: Nothing much to do until repo migrations and other infra bits start moving
  - Casey: Did we look at anything else, ie Azure CI?
  - Alex: No, just ported the Juniper model into community managed infra
    - Works well for big community
  - Casey: There are new CI options being talked about amongst LFN projects
  - Alex: There seems to be some doubts with gerrit so other options might be useful to look at
    - since zuul requires gerrit
  - Casey: Can invite to LFN working group to get more community input
  - Gary: Sore point: a lot of community tools and procedures which are easily used by long term members
    - but we should be doing a better job about serving newer members
  - Casey: We recognize that we need to be doing a better job for new members
    - as well as cost concerns, are we still using the right tools

Action items

- [ ] Daniel Pono Takamoriadd docs for gating
