- Checking on AIs:
 - Nominations: Casey's AI
 - Tools to help release notes: Ed

Minutes

The initial discussion on Netronome's proposal started here and was mostly around implementation and ties to open source aspects of the TF community. The discussion will continue in the SmartNIC call this Thursday 10/18 at 8am PDT (see <https://tungsten.io/community/>).

Casey sent a "Call for nominations" on 10/9. The nomination deadline is 9/26, and so far no nominations have been received. Casey appealed to the group for nominations.
