

# Multi-Cloud Network Segmentation with Kubernetes and TF

**Abstract**

Extend your network segmentation from a single cloud deployment to multiple clouds. Leveraging Kubernetes and Tungsten Fabric, we will show how the network segmentation for a Kubernetes namespace can be extended to a namespace in another Kubernetes deployment in a different cloud provider.

**Speakers**

Syed Ahmed <[sahmed@cloudops.com](mailto:sahmed@cloudops.com)> - CloudOps  
Will Stevens <[wstevens@cloudops.com](mailto:wstevens@cloudops.com)> - CloudOps

**Type**

Full Talk (30+ minutes)

**Includes Demo?**

Yes
