Minutes

- Testing - DPDK
 - what can enable Tungsten Fabric move towards upstream DPDK.
 - JG: Tungsten Fabric does not have to be rock solid right from the beginning
 - JG: need to use the same toolchain for adding test framework for DPDK
 - PS: ATS will be able to support the CI
 - DH: Willing to capture documentation and do discovery
- Jira workflow
 - still work in progress.
- Blueprint review process
 - The older document above needs to move to the current TF doc repo - DH is going to bring it up in tomorrow's doc meeting
 - It has already been approved by the TSC but we need to update the doc with the new infrastructure (Jira ~~vs~~ Launchpad etc)
 - PS: Will review and propose changes in the next TF TC call
- Next week's TC call is cancelled people in ONS Europe
