- [Will Stevens](#)
- [VM \(Vicky\) Brasseur](#) (she/her)
- [Lisa Caywood](#)
- [Ian Rae](#)
- [Syed Ahmed](#)
- [Joseph Gasparakis](#)
- Savannah

Agenda

- Start the Recording
- [Antitrust Policy](#)
- Agenda Bashing (Roll Call, Action Items (5 minutes))
- General Topics
 - [Darien Hirotsu](#) : Job change. Any issues?
 - Discussed here: <https://lists.tungsten.io/g/tsc/message/655>
 - Quick ONS EU update
 - As we move repos from review.opencontrail.org to gerrit.tungsten.io, how do we review the current core committers and pair to a valid LF ID for the new system?
 - That Panama DDF thing

Minutes

- General conversation about tf-devstack
 - Needs work. Working on it.
 - We have 5 core committers now, incl [Alexandre Levine](#), [Will Stevens](#), [Darien Hirotsu](#), [andrey-mp](#) | andrey-mp@yandex.ru, [alexey-mr](#) | alexey.morlang@gmail.com
- Action items
 - [Darien Hirotsu](#) has a draft of release notes, just converting to rst now
- [Darien Hirotsu](#) Job change
 - Woo! New gig!
 - Still able to stay in the community
 - Double woo!
- Quick ONS EU
 - Not a lot of TF stuff presented. Not a lot of talks submitted/approved.
 - Good talk from Codalime with lots of attendance.
 - Good booth presence at [Sukhdev Kapur](#) 's demo
 - Lots of edge discussions
 - Lots of telco related topics.
 - help telcos make the leap into cloud-native
 - TUG (telco user group) is doing interesting things
 - CNF testing platform in the works. Leverages NetworkServiceMesh...
 - Relatively small event (<500ish)
 - More suits than developers (type of attendee)
 - [Sukhdev Kapur](#) did a great job bringing people together to discuss a common API around telco and related services (CNTT, CNCF TUG, etc)
- Transferring core contributors from review.opencontrail.org (die.die.die) to gerrit.tungsten.io
 - Kicking this to email since the people who have the answers aren't on this call
- Panama DDF thing
 - Everyone's +1 on not doing it
- Monthly releases
 - Discussed in an earlier meeting
 - No consensus yet
 - Plan to use same version numbers as Contrail (19-09, for instance)
 - But we can skip months if we need, just use same numbering scheme
 - Can choose cadence and still use same numbering strategy
 - [Lisa Caywood](#) is adding this question to the DDF
- More talk about what to add to the DDF schedule

Action items

- ☑ Darien Hirotsu and Will Stevens will review the migration process of the release notes from MD to RST via Pandoc
- ☑ VM (Vicky) Brasseur (she/her) Add "What to do with a TSC seat?" to backlog of agenda items
