- Daniel Pono Takamori

Agenda

- Action items from 2019-10-09 Docs Project Meeting
- Open Docs patches: https://gerrit.tungsten.io/r/q/project:docs+status:open
- OMG! docs.tungsten.io! SO GREAT!
  - Operational details (commit, push, merge, then…?) Daniel Pono Takamori?
  - Announcing it to the community
- Next steps

Minutes

- Action items
  - Pono will get info.yaml out today
  - VMB sent patch
- Skip the patches for now
- docs.tungsten.io
  - Operational details
    - Pono: Mirror is funky & gerrit isn't replicating correctly, but will sort it out
    - Flow: Edit > Gerrit patch > Wait ~10 minutes > replicates to GitHub > Builds from GH (a bit of lag here) > RTD displays from master on GH
    - Assume ~30 minutes max right now to see you patch go live
  - Were problems with Zuul
    - Zuul isn't set up to test repos out of the TF Gerrit yet
    - Weren't any cycles on the Progmatic team right now
  - Configs?
    - For now, everything seems to be as we need
    - Can tweak later when/if we get more RTD experience
  - Admins for RTD
    - Will reduce the circus factor w/more admins
  - Announcing!
    - VMB announce at TSC call
    - Come up with a statement to send to dev@
- Next steps
  - Pono: Would like to add to CI that docs are required (will open ticket)
  - VMB take this question to the list

Action items

- ☑ Daniel Pono TakamoriSet all Docs core contribs to admins on RTD
- ☑ VM (Vicky) Brasseur (she/her) Come up w/a statement to sent to dev@ & run past docs@
- ☑ Daniel Pono Takamori Open ticket to get CI gate for "are docs?"
- ☑ VM (Vicky) Brasseur (she/her) Send "next steps" question to the list
