## Minutes

### Governance JIRA Workflow Gerrit Patches

- CC is reviewing the Governance Update and Blueprint proposals. Will create a voting resolution and send it to the TSC for a vote by 17 Jan 2020

### Docs Contributor MVP Epic

- Docs: [VM \(Vicky\) Brasseur \(she/her\)](#)docs has an actual workflow with gerrit. Need folks to review patches (see above).
- Docs: How to make it easier for Juniper docs people, specifically, to contribute to our documentation?
- The current people working on docs are not experts in Documentation and do not have time to support the docs properly.
  - If you have anyone in your company that can work on TF documentation maybe 2-4 hours per week, please have them join the Docs meeting and support the community.

### tf-devstack update

- tf-devstack needs testing
  - Verify it's usable
  - Look for things to change
- Integrated into Jenkins now
  - Alex will be mailing the community to tell them about moving from Zuul to Jenkins
- [Alexandre Levine](#) will send an email to the dev@ list
- Link above

### CI update

- Now using Jenkins instead of Zuul
- Almost ready to produce nightly builds
- Almost on par with zuul
- Once ready to go, will recommend that Contrail make it a voting CI

### TF Developer Guide resource(s)?

- Will have a working tf-devstack
- Hopefully will lead to a better workflow
- Will need people to step up to help document this

#### Elections

- CC having trouble getting a list of active people (data is incorrect)
  - Trying to get that data fixed, rebuilding the DB
  - Should hopefully have the list today
- TSC will need to vote/confirm ACC & ATC lists

#### Action items

- Casey Cainto submit voting resolutions for the TSC for Governance Updates and JIRA Blueprints workflows.
- Casey Cain get a resolution out for TSC to vote on Active Contributors (ACC & ATC) today
- Casey Cain get metrics + data sources out to the community today for feedback
-
