 - <https://gerrit.tungsten.io/r/c/docs/+299>
 - [Resolution](#)
 - KubeCon Amsterdam (3/30-4/2, Amsterdam)
- Any Other Topics

Minutes

Action Item Follow-up

- A proposal by [VM \(Vicky\) Brasseur \(she/her\)](#) has been made for a wiki page gathering requirements for a new chat platform for TF. Please review and comment. [Real Time Chat: Requirements and Candidates](#)

Release Planning

- [Prabhjot Singh Sethi](#) We do not have a well-defined release management proposal.
 - Need to be able to move between releases with ease (Upgrades/downgrades)
- Need regular test builds
- The next targeted release is Jan 23.
 - Darien promised to help with documentation for the release.
- [Prabhjot Singh Sethi](#) proposes that we use build R2003 as a Release Candidate because we haven't had an official release in a while.

Gerrit

- VMB: We are moving repos from Juniper to LF. Suggesting and asking if it is worth it to migrate to GitLab. Believes that Gerrit negatively affects community engagement.
- Alex doesn't believe that this an option right now. However, in the long term, GitLab is a possible alternative.
- VMB suggests that the community defines what the requirements are for code review in the community.

TSC Election

- ACC List is generated manually currently from the community activity on JIRA, Confluence, and mailing lists. We currently have no way of obtaining metrics for Slack.
 - Please review the [Resolution](#) for accuracy and cast your ballot.
- The list of Active Technical Contributors is a list programmatically generated by taking all code contributions to [gerrit.tungsten.io](#), [review.openconrail.org](#), and [github.com/tungstenfabric](#). They were merged and duplicates and bots removed.
- Elections will begin soon as the ACC list has been approved.

Governance and Documentation Update

- CC talks about what is in the gerrit patch:
- It was noted that ARB still needs to be removed.
- VMB: Let's get the community to review and add their +1 / -1

Events

- KubeCon Amsterdam - 30 Mar 2020 - 04 Feb 2020
- LFN Developer & Testing Form, Seoul, South Korea - 01 Jun 2020 - 04 Jun 2020

Action items

- Casey Cain Document (under Administration) how to generate the ATC and ACC lists
