- Any Other Topics

Minutes

Events

- ONES takes place in April in LA. If you have any Unconference topics (small technical breakout sessions), please submit them.
 - Some timeslots will be reserved for on-site booking to accommodate discussions that happen at ONES.
- ONES Booth demo proposals needs to be submitted by Feb 26th
 - Suggested that we highlight integrations with Akraino in our booth demo submissions
- TF wants to adopt developer & testing forum, request for topic proposals to indicate target projects
 - Please submit topic proposals [here](#)
 - schedule will be finalized around 15 May
 - followup on Corona virus, an update will be provided for any developments

Project Health Review

- Casey explained why the community must submit a Project Health Review but explained that we do have a bit of leniency on when we submit.
- Casey noted that the slides for the presentation should talk about the improvements that we've made in the community
 - Improvements to CI/CD to allow support for Jenkins
 - Near completion of the repository migration and the benefits that it brings to the community
 - Cross-Project Interactions with Akraino, DPDK, ONAP, etc.
 - Possible migration to GitHub (If we decide on that before the submission date)
 - Refinement of our Governance policies around Blueprints and possible resizing of the TSC (If it's agreed to)
- After discussion, it was agreed to change the date for PHR to 11 Mar 2020 so that the community has time to refine messaging.

Issues with Repo migration

- Commits are getting squashed when migrating to the LF
- RB: This is by design.
- Tags are missing after the migration. This is making it difficult to map code to a release.
 - Need to maintain a code base for previous releases also. This becomes a challenge without the previous branches
 - Alex: Previous branches are still available in Juniper repos

Elections

- The LFN Governing Board Rep Self-Nomination period is open. You can find more information [here](#).
 - Casey encourages all eligible committers to self-nominate.
 - All Self-Nominations must be received by 04 Mar 2020 at 5pm PT.
 - Committers can come from any project to represent the general technical community at the Governing Board.
- The TF Election has received 5 Technical and 3 Community self-nominations for the 2020 TSC.
 - Currently, the governance states that we must have 5 representatives from each group.
 - We can extend the self-nomination period to 27 Feb 2020 or ask the current TSC to adjust the size of the TSC going forward.
 - During the discussion, it was agreed that the TSC should reduce the number of community seats to 3.
 - Casey will propose a resolution to the TSC for a vote. Askes all TSC members to vote on this resolution as quickly as possible.

Action items

- Casey Cainto send a resolution for TSC agreement to reduce the TSC Community Representatives from 5 to 3. 20 Feb 2020
