

2020 TSC Chair Election

The role of the TSC Chair is to lead the TSC through meetings and discussions on relevant topics as well as be the interface between the TAC and the Tungsten Fabric Community. To this end the TSC chair needs to have the interest and bandwidth to engage with the TAC and Community along with LF staff to determine and prioritize TSC discussions and actions.

Key responsibilities include:

Provide overall leadership and direction for the TSC

- Chair the TSC Meetings by preparing meeting agendas and ensure all topics are addressed with the necessary and sufficient depth
- Help to resolve conflicts that may arise within the TSC
- Assign and follow up on action items as appropriate

Election Dates

Self-Nomination: 11 Mar 2020 - 02 Apr 2020 - Closes Midnight UTC / 5PM PT

Voting: 26 Mar 2020 - 09 Apr 2020 - Closes Midnight UTC / 5PM PT

Information on the Candidates

Each Candidate, please provide the following:

- Name
- Photo
- Statement of Intent in being the TSC Chairperson
- Biography

Candidates

Prabhjot Singh Sethi

Statement of Intent: I have been a member of the community from the early days, since then I have been driving some of the technical discussion in the community. we have made good progress as a community so far. however, we still have much to address. I am looking forward to address TF adoption and building a stronger developer community, enabling community members to extend their use cases using TF. Community currently is as well in a need of a release plan process, which should strengthen adoption and provide visibility to developer community

Short Biography: I am Chief Architect at ATS, leading SDN/NVF project initiatives, with a hands-on development experience of various components in Tungsten Fabric. I have been on the LF networking whitepaper work group and helped compiling the tungsten fabric section for the whitepaper. I have also represented tungsten fabric at ONS - NA 2019 and ONS - Europe 2019.
