Agenda

- Review action items from [2020-04-09 Docs Project Meeting](#)

- Gerrit to GitHub:

 Unable to locate Jira server for this macro. It may be due to Application Link configuration.

(I hate this; I

want to see the link, not a giant icon; [Casey Cain](#), is there a way to disable this on a per-link basis?)

- FYI: VMB out next week (vacation)

Minutes

- Jumping directly in to the GH transition
- Do we move our tickets from Jira to GH Issues?
 - VMB sent email to dev@ about this: <https://lists.tungsten.io/g/dev/message/619>
 - Pono: Parallel question; could start thinking about it now
 - AT: Thinks GH makes sense for Issues
 - VMB will add this to the TSC call agenda for next week

- AT: Put my ticket on hold for now?

 Unable to locate Jira server for this macro. It may be due to Application Link configuration.

- VMB: Oh, snap. Yes, please.
- AT will look a different ticket for now.

- The ticket:

 Unable to locate Jira server for this macro. It may be due to Application Link configuration.

- Pono says this is a good list to start
 - Will add comments about bits that need to be done in Jenkins
- Gating on +1s may be a for-pay feature
- Will need to add bullet item for defining code owners
- Moving forward
 - Break TFB-1574 into an epic
 - Pono will make RIsEng Jira tickets and link them to our epic
- Will need to start thinking about the workflow/social part of this as well
 - Hard part will be getting folks outside of Docs to test the new workflow
