 - [Release Planning](#)
 - [Offsets](#)
 - [Features](#)
 - [Requirements](#)
- Any Other Topics

Minutes

Upstream DPDK

- Kiran: There is a need for business requirements to leverage upstream DPDK.
 - Not sure if we want to adopt the upstream or fork of 19.11
- Still can use forked branches
 - The requirement is that APIs should not change for later versions of DPDK.

Release Planning

- Need to capture some of the overlaps in the milestones
- Need more active participation of the community to develop the release plan
- Need a dedicated Release Manager. Is there anyone from the community that can step forward?
- The community will reach out to their organizations to encourage their development teams to join the call on 05 May 2020 and work through the plan.
- Casey will reach out to Mirantis, CloudOps, and Yandex to request feedback on the release planning.

Action items

- ☑ Casey Cain to reach out to Mirantis, CloudOps, Yandex to request feedback on the TF Release Plan 29 Apr 2020
