

# 2020-05-21 Docs Project Meeting

## Date

21 May 2020

## Attendees

- VM (Vicky) Brasseur (she/her)
- Daniel Pono Takamori
- Casey Cain
- Abirami Thangavel

## Agenda

- No action items from [2020-05-14 Docs Project Meeting](#)
- Welcome to the later & shorter meeting!
- Gerrit to GitHub transition
  - All Gerrit patches landed, so that's cleared out
  - Update on <https://jira.linuxfoundation.org/browse/RELENG-2848> (site is 504ing at time this agenda is being written)
  - What's up with Jenkins?
  - What's left?

## Minutes

- G to GH update
  - Pono is sick right now. 🙄
  - Gerrit patches landed, but mirroring to GH didn't happen
    - Pono is looking into it
  - Sending email to a different person for the Jenkins stuff
  - Later today will set Gerrit to read-only
    - AT THAT POINT we'll be committing to GitHub only
    - Will do this w/o Jenkins for now, since it's no different than what we have now
- The new gates for GH (for now, could add more later)
  - CLA
  - DCO (Signed-by)
- And that...?
  - The move should be done
  - Will need to send a test PR to confirm the RtD is working
- Blog post
  - Brandon is working on this
  - Have a draft
  - VMB will send the draft along
- Workflow...?
  - Pono suggests making a GH-Workflow branch in GH
  - This will allow us to have two different versions of docs pub'd on RtD
  - Can then rewrite docs for GH workflow while still retaining docs about Gerrit so folks can still contribute to the other repos until they transition to GH
