General discussion about Community

Jira or Issues

- Docs is migrating from Gerrit to GitHub
- VM (Vicky) Brasseur (she/her) believes that there may be value in migrating from Jira to GitHub Issues.
- VM does not like the notification methods of Jira and believes that the reason why we don't get a lot of traction on addressing issues.
- The TSC was in general agreement that it could make sense to leverage the same place for Code and Issues.
  - Should a repo move from Jira to GitHub Issues as the repo moves off of gerrit?
  - It seems that the TSC is in general agreement. Casey will prepare a resolution for the TSC to vote on.

Bridging the Gap on TF Release

We need to consider doing a release on v2003 before we move onto the new release Plan.

Need help from Sukhdev Kapur

Once this is prepared, the TSC can vote to approve the Release.
