

2020-06-04 Docs Project Meeting

Date

04 Jun 2020

Attendees

- [VM \(Vicky\) Brasseur \(she/her\)](#)
- [Darlen Hirotsu](#)
- [Daniel Pono Takamori](#)
- [Jared Linley](#)
- [Casey Cain](#)
- [Abirami Thangavel](#)

Agenda

- Action items from [2020-05-28 TSC Minutes](#) and [2020-05-21 Docs Project Meeting](#)
- Jared: Update on repo move
- [Daniel Pono Takamori](#) : Update on GitHub transition
- How to handle a transition from Jira to GH Issues? (see [this thread](#))

Minutes

- Action items from 21st
 - easyCLA: Currently no examples of it being set up in 2 places
 - Email asking about it
 - DCO may be adequate?
 - VMB: CLA is at project level, set by LF, probably not adequate
 - Not done pushing unmirrored changes yet
 - [Daniel Pono Takamori](#) will do this today
 - Jenkins?
 - Pono emailed Progmatic but haven't heard back
 - Hit/miss to get responses from them
 - VMB suggests Pono coordinate with Jared
 - No documentation about how to set up new Jenkins jobs; will need to work on that
 - RtD to get multiple branches
 - Ready to go but need to know which branches
 - RtD doesn't have native support for branch building; it's a Jenkins thing
 - This would allow us to have multiple versions of the RtD docs at once: Production, In Development
 - PRs would get their own previews by way of "local" builds
 - VMB: Not cutting releases yet, so should postpone this until then
 - Pono: +1. Trivial to add later
- Action items from 28th
 - DH: Follow up on documentation he was working on
 - VMB: Put all work on hold until GH transition is done
- Jared: Update on the repo move
 - Conrail release 2005 done, can start generating more reviews
 - Large window before 2008 branch
 - 2008 branch cut around mid-July-ish
 - 3 reviews lined up, 11 left after that
 - Hope to get these last ones done before the 2008 branch
 - Could happen within 2 weeks
 - Assumes no CI or other problems
 - Final repos are most active; will be a problem w/that?
 - Don't anticipate that
 - Any delays would probably be in communication
 - Jared hopes to join docs call going forward
- Jira to issues
 - VMB suggests we do our work in the issue, make decision on next week's call
 - https://lists.tungsten.io/g/docs/topic/moving_from_jira_to_gh_issues/74382930

Action items

- Daniel Pono Takamori Send easyCLA follow up today
- Daniel Pono Takamori Follow up with Progmatic & Cc VMB & Jared Linley
