

# Move Upstream DPDK for TF

## Date

25 Jun 2020

## Attendees

- [Prabhjot Singh Sethi](#)
- [Herakliusz Lipiec](#)
- [sagar Chitnis](#)
- [Sukhdev Kapur](#)
- [Anand Rao](#)

## Overview

Discussion on upstream work done so far and roadmap for induction of dpdk features

- Schedule: <https://teamup.com/event/show/id/9BDMLoBfhmarQgQ91yCi2MyDgZejHS>
- Recording: [Move Upstream DPDK for TF.mp4](#)
- Slides:

## Minutes

-Motivation is to upstream DPDK patches and move away from using private patches.

-Upstreaming model discussed that includes always building against upstream release, and reporting bugs and submitting patches upstream.

-TF vrouter is build-able against upstream DPDK

-Went through list of patches in contrail-dpdk 18\_05\_01

-In future we will be moving to 19.11 as it has performance improvements and new features/bugs.
