2020-07-02 Docs Project Meeting

Date

02 Jul 2020

Attendees

- VM (Vicky) Brasseur (she/her)
- Daniel Pono Takamori
- Jared Linley

Agenda

- Action items from 2020-06-25 Docs Project Meeting
- Update on Jira Issues
  - still waiting on TSC call today
- Update on Gerrit GitHub
  - disabled DCO check since EasyCLA is working
  - reduced required reviews to 1

Minutes

- Action items
  - VMB sent PR; proved easyCLA is working (yay!); will now close PR w/o merge
- Jira Issues
  - Pono reviewed more tools
  - Paid tools will need TSC approval
    - Will talk to them today
    - Would cost only ~ $200
  - Also, those tools have "really sketch permissions"
    - Root level of the TF Jira server; would give them SSO access, which would be bad
    - Sent the tools off to LF IT for an audit
  - If can't find one that's A-OK to use (pass audit, approval to spend), will have to do a lot of manual scripting
    - Manual scripting would take a few days, at the very least
- Gerrit GitHub
  - easyCLA works!
  - DCO no longer needed, so Pono dropped it (yay!)
  - For now, dropped # required reviews to one
    - Will bump this up to 2 again when there is a larger docs team
  - What's left?
  - Jenkins. Still. Dammit.
    - This is the only thing holding us back at this point.
    - Jared: They might be close on this
    - VMB: Irritated. They're bottlenecks & they don't communicate well
      - Asked Jared to push them to complete this, ask them to Cc docs@ mailing list, keep people in the loop (Jared: OK, will try)
