- GH update!
  - Still waiting to hear from Progmatic re: Jenkins
    - We currently can't add jobs to the Jenkins
    - Jenkins config is in Progmatic GH; will need to clone that to TF
  - CODEOWNERS
    - Do we want to build this out already?
    - VMB: Yup; do it that way for docs, then use as basis for recommendation for all repos
  - CLA
    - **Can** have it pointed to both Gerrit & GH, woo!
    - DCObot is set up already, so commits will need to be signed
  - Found a Jira integration
    - Wiring it up to GH today/tomorrow
- Gerrit patches
  - VMB will ping Darien directly about his patches
  - Will also merge GSoC patches; clean up later
- In summary...
  - The only thing blocking us right now is Jenkins
  - [Daniel Pono Takamori VM \(Vicky\) Brasseur \(she/her\)](#) will have everything else sorted by tomorrow
