## Minutes

- Action items

- <https://gerrit.tungsten.io/r/c/tungstenfabric/docs/+351>
  - Update from Abirami: busy past week; haven't rev'd this yet
  - Will aim for next week
- Review the Epic
  - Notes in the tickets
- Branching question from [Darien Hirotsu](#)
  - What does Gerrit do when Gerrit land the patch? Does it rebase or a merge...?
    - We **think** it's a rebase.
    - [Daniel Pono Takamori](#) ?
  - In GH, working in master can get messy, but we're working on it in Gerrit
    - VMB: Might be getting rid of Gerrit. Table this for now?
- Version question from [Darien Hirotsu](#)
  - Some of the docs are out of date for current version
  - VMB: RtD can handle multiple versions; can leverage that in the future
    - Would be a separate project, because there'd be a lot of cleanup
