Accelerated way for Release 2011

As Juniper announced that they are already close to M4 with all requested changes, while Tungsten Fabric formally is in M0 we propose to review the below points to assure that TF may confirm M4 achievement.

Move from M0, M1, M2, M3 M4

Blueprint stored as Confluence page or Markdown (.md) file in https://github.com/tungstenfabric/tf-specs repo in R2011/TFF-XX subfolder - link provided in Jira Epic ticket All dependencies between existing functionality and requested change/feature discussed and agreed by PTL and related approvers (based on Modules/Committers) Technical design documentation stored in https://github.com/tungstenfabric/tf-specs repo in R2011/TFF-XX subfolder - link provided in Jira Epic ticket Documentation presented and discussed on TF meeting - approved by relevant module committers and Documentation PTL Tests results presented and discussed on TF meeting to assure proper QA coverage Branch of code marked (linked to TFF Jira ticket) Documentation (done, not done, n/a) - added to the repo in R2011/TFF-XX subfolder and link added to JIRA EPIC All documents are written using Markdown or Confluence Link to API documentation Link to Tech spec Link to Tech spec Link to the Installation documentation Link to the Installation documentation Link to the user manual Link to a demo Tests (done, not done, n/a) Feature tests conducted, test report provided (report or documentation added to the repo in R2011/TFF-XX) Known, existing errors Link to a manual test procedure added to JIRA EPIC Link to a code of automated tests added to JIRA EPIC	Requirement	
provided in Jira Epic ticket All dependencies between existing functionality and requested change/feature discussed and agreed by PTL and related approvers (based on Modules/Committers) Technical design documentation stored in https://github.com/tungstenfabric/tf-specs repo in R2011/TFF-XX subfolder - link provided in Jira Epic ticket Documentation presented and discussed on TF meeting - approved by relevant module committers and Documentation PTL Tests results presented and discussed on TF meeting to assure proper QA coverage Branch of code marked (linked to TFF Jira ticket) Documentation (done, not done, n/a) - added to the repo in R2011/TFF-XX subfolder and link added to JIRA EPIC All documents are written using Markdown or Confluence Link to API documentation Link to Tech spec Link to the Installation documentation Link to Deployment documentation Link to Deployment documentation Link to the user manual Link to a demo Tests (done, not done, n/a) Feature tests conducted, test report provided (report or documentation added to the repo in R2011/TFF-XX) Known, existing errors Link to a manual test procedure added to JIRA EPIC		
Modules/Committers) Technical design documentation stored in https://github.com/tungstenfabric/tf-specs repo in R2011/TFF-XX subfolder - link provided in Jira Epic ticket Documentation presented and discussed on TF meeting - approved by relevant module committers and Documentation PTL Tests results presented and discussed on TF meeting to assure proper QA coverage Branch of code marked (linked to TFF Jira ticket) Documentation (done, not done, n/a) - added to the repo in R2011/TFF-XX subfolder and link added to JIRA EPIC All documents are written using Markdown or Confluence Link to API documentation Link to CLI documentation Link to the Installation documentation Link to the Installation documentation Link to the user manual Link to a demo Tests (done, not done, n/a) Feature tests conducted, test report provided (report or documentation added to the repo in R2011/TFF-XX) Known, existing errors Link to a manual test procedure added to JIRA EPIC		
ticket Documentation presented and discussed on TF meeting - approved by relevant module committers and Documentation PTL Tests results presented and discussed on TF meeting to assure proper QA coverage Branch of code marked (linked to TFF Jira ticket) Documentation (done, not done, n/a) - added to the repo in R2011/TFF-XX subfolder and link added to JIRA EPIC All documents are written using Markdown or Confluence Link to API documentation Link to Tech spec Link to Tech spec Link to the Installation documentation Link to the user manual Link to the user manual Link to a demo Tests (done, not done, n/a) Feature tests conducted, test report provided (report or documentation added to the repo in R2011/TFF-XX) Known, existing errors Link to a manual test procedure added to JIRA EPIC		
Tests results presented and discussed on TF meeting to assure proper QA coverage Branch of code marked (linked to TFF Jira ticket) Documentation (done, not done, n/a) - added to the repo in R2011/TFF-XX subfolder and link added to JIRA EPIC All documents are written using Markdown or Confluence Link to API documentation Link to Tech spec Link to Tech spec Link to the Installation documentation Link to Deployment documentation Link to the user manual Link to the user manual Link to a demo Tests (done, not done, n/a) Feature tests conducted, test report provided (report or documentation added to the repo in R2011/TFF-XX) Known, existing errors Link to a manual test procedure added to JIRA EPIC		
Branch of code marked (linked to TFF Jira ticket) Documentation (done, not done, n/a) - added to the repo in R2011/TFF-XX subfolder and link added to JIRA EPIC All documents are written using Markdown or Confluence Link to API documentation Link to CLI documentation Link to Tech spec Link to the Installation documentation Link to Deployment documentation Link to Deployment documentation Link to the user manual Link to a demo Tests (done, not done, n/a) Feature tests conducted, test report provided (report or documentation added to the repo in R2011/TFF-XX) Known, existing errors Link to a manual test procedure added to JIRA EPIC		Documentation presented and discussed on TF meeting - approved by relevant module committers and Documentation PTL
Documentation (done, not done, n/a) - added to the repo in R2011/TFF-XX subfolder and link added to JIRA EPIC All documents are written using Markdown or Confluence Link to API documentation Link to CLI documentation Link to Tech spec Link to Tech spec Link to the Installation documentation Link to Deployment documentation Link to Deployment documentation Link to the user manual Link to a demo Tests (done, not done, n/a) Feature tests conducted, test report provided (report or documentation added to the repo in R2011/TFF-XX) Known, existing errors Link to a manual test procedure added to JIRA EPIC		Tests results presented and discussed on TF meeting to assure proper QA coverage
All documents are written using Markdown or Confluence Link to API documentation Link to CLI documentation Link to Tech spec Link to the Installation documentation Link to Deployment documentation Link to Deployment documentation Link to the user manual Link to a demo Tests (done, not done, n/a) Feature tests conducted, test report provided (report or documentation added to the repo in R2011/TFF-XX) Known, existing errors Link to a manual test procedure added to JIRA EPIC		Branch of code marked (linked to TFF Jira ticket)
All documents are written using Markdown or Confluence Link to API documentation Link to CLI documentation Link to Tech spec Link to the Installation documentation Link to Deployment documentation Link to Deployment documentation Link to the user manual Link to a demo Tests (done, not done, n/a) Feature tests conducted, test report provided (report or documentation added to the repo in R2011/TFF-XX) Known, existing errors Link to a manual test procedure added to JIRA EPIC		
Link to API documentation Link to CLI documentation Link to Tech spec Link to the Installation documentation Link to Deployment documentation Link to the user manual Link to a demo Tests (done, not done, n/a) Feature tests conducted, test report provided (report or documentation added to the repo in R2011/TFF-XX) Known, existing errors Link to a manual test procedure added to JIRA EPIC	Doci	umentation (done, not done, n/a) - added to the repo in R2011/TFF-XX subfolder and link added to JIRA EPIC
Link to API documentation Link to CLI documentation Link to Tech spec Link to the Installation documentation Link to Deployment documentation Link to the user manual Link to a demo Tests (done, not done, n/a) Feature tests conducted, test report provided (report or documentation added to the repo in R2011/TFF-XX) Known, existing errors Link to a manual test procedure added to JIRA EPIC		All documents are written using Markdown or Confluence
Link to CLI documentation Link to Tech spec Link to the Installation documentation Link to Deployment documentation Link to the user manual Link to a demo Tests (done, not done, n/a) Feature tests conducted, test report provided (report or documentation added to the repo in R2011/TFF-XX) Known, existing errors Link to a manual test procedure added to JIRA EPIC		•
Link to Tech spec Link to the Installation documentation Link to Deployment documentation Link to the user manual Link to a demo Tests (done, not done, n/a) Feature tests conducted, test report provided (report or documentation added to the repo in R2011/TFF-XX) Known, existing errors Link to a manual test procedure added to JIRA EPIC		
Link to the Installation documentation Link to Deployment documentation Link to the user manual Link to a demo Tests (done, not done, n/a) Feature tests conducted, test report provided (report or documentation added to the repo in R2011/TFF-XX) Known, existing errors Link to a manual test procedure added to JIRA EPIC		
Link to Deployment documentation Link to the user manual Link to a demo Tests (done, not done, n/a) Feature tests conducted, test report provided (report or documentation added to the repo in R2011/TFF-XX) Known, existing errors Link to a manual test procedure added to JIRA EPIC		
Link to the user manual Link to a demo Tests (done, not done, n/a) Feature tests conducted, test report provided (report or documentation added to the repo in R2011/TFF-XX) Known, existing errors Link to a manual test procedure added to JIRA EPIC		
Link to a demo Tests (done, not done, n/a) Feature tests conducted, test report provided (report or documentation added to the repo in R2011/TFF-XX) Known, existing errors Link to a manual test procedure added to JIRA EPIC		
Tests (done, not done, n/a) Feature tests conducted, test report provided (report or documentation added to the repo in R2011/TFF-XX) Known, existing errors Link to a manual test procedure added to JIRA EPIC		
Feature tests conducted, test report provided (report or documentation added to the repo in R2011/TFF-XX) Known, existing errors Link to a manual test procedure added to JIRA EPIC		LIIK O d donie
Known, existing errors Link to a manual test procedure added to JIRA EPIC	Tests (done, not done, n/a)	
Known, existing errors Link to a manual test procedure added to JIRA EPIC		
Link to a manual test procedure added to JIRA EPIC
