Agenda

- Start the Recording
- We will start by mentioning the project's Antitrust Policy, which you can find linked from the LF and project websites. The policy is important where multiple companies, including potential industry competitors, are participating in meetings. Please review and if you have any questions, please contact your company legal counsel. Members of the LF may contact Andrew Updegrave at the firm Gesmer Updegrave LLP, which provides legal counsel to the LF.

 - **Release R2011:**
 - [question] What is the status of Release Notes for R2011?
 - [question] Will Release Notes include everything that was done between 5.1 and R2011?
 - **Documentation:**
 - [question] Is there anyone in Juniper who could help me with converting documentation to TF? I need someone to answer my questions and to do a code review.
 - [question] Is there anyone in the community who could help me with conversion? With the tools that I've prepared the task is easy but there are still 101 documents that waiting for the conversion.
 - **Operator Framework**
 - [question] [Alexandre Levine](#) how the TF community can help with moving Operator Framework to TF?
 - **One JIRA**
 - [question] [Jared Linley](#) [James Kelly](#) Juniper has his own JIRA with issues that relate to different releases (like LTS), TF, and Conrail parts (like Conrail Command). Is it possible to set up a flag (field?) in issues that could be freely copied to TF and copy (daily?) their title and comments without any Juniper specific fields?
 - **Removing Conrail references from the source code**
 - [discussion] Removing Conrail references from source code. [Nick Davey](#) were you able to find any leader for that topic?

 - For support from the team, please create a ticket on support.linuxfoundation.org
- [DW Talton](#) the community Gerrit is now pointing to the community JIRA for issue linking but is not currently enforced.
- [Casey Cain](#) I would like to not have to turn on enforcement unless we can't consistently leverage the community resources. Let's wait until 04 Mar 2021 and see what the engagement is before we revisit enforcement.
