

2021-02-23 TWS Minutes

Zoom Bridge: <https://zoom.us/j/908826213> || Meeting ID: 908 826 213 || [Recording Repository](#)

Attendees & Representation

Casey Cain Vanessa Valderrama Chandra Dasari Szymon Golebiewski Szymon Krasuski Alexandre Levine Prabhjot Singh Sethi Jared Linley

Agenda

- Start the Recording
- We will start by mentioning the project's Antitrust Policy, which you can find linked from the LF and project websites. The policy is important where multiple companies, including potential industry competitors, are participating in meetings. Please review and if you have any questions, please contact your company legal counsel. Members of the LF may contact Andrew Updegrove at the firm Gesmer Updegrove LLP, which provides legal counsel to the LF.
 - [Antitrust Policy](#)
- Agenda Bashing, Roll Call, Action Items
- General Topics
 - Infra updates
 - Gerrit groups
 - Confirmation of users
 - Release status update
 - Free5GC deployment with Tungsten Fabric as CNI
 - ContrailVM image required for VMware deployment. We need either the image (to start testing that) or instructions on how to build that image,
- Any Other Topics

Minutes

Infra Updates

- [Chandra Dasari](#) and [Vanessa Valderrama](#) talked about how the LF is cleaning up the gerrit permissions, committer promotions process, and migration to the LF Single Sign-on.
 - Will be presenting more detail and self-service and repo creation on 04 Mar 2021 at the TSC meeting.
- A discussion ensued around project mapping to repositories so that permissions can be effectively managed.
 - Permissions for PTLs and Committers need to be mapped to a repository.
 - Logically right now it is difficult for the community to associate a Project to a Repo
 - To prevent blocking of active development, the community should associate a PTL and an initial set of committers to the existing repositories.
 - The community can then in the future properly associate a project to a specific repository as they decide the permissions should be logically separated.
- An initial page to identify the initial PTL and Committers has been created here:
 - <https://wiki.tungsten.io/x/RQA2Ag>
 - All community members should update this page for review and approval by 25 Feb 2021
 - Any modifications to the PTLs or Committers after 25 Feb 2021 will require an additional vote by the TSC.

Other topics

- Other topics differed for time.

Action items

- ✓ Casey Cain to send a request to the community to update the initial committers and PTL to the TSC on 23 Feb 2021
