Members of the LF may contact Andrew Updegrave at the firm Gesmer Updegrave LLP, which provides legal counsel to the LF.

Release images

- [Alexandre Levine](#) - Juniper build and release was based on UBI (Red Hat licence) - we are not sure if TF can use the same.
- [Marek Chwal](#) so plan is to:
 - check if we can use UBI [Nick Davey](#) - if yes than we should follow and publish new TF Release based on UBI
 - if we can't use UBI than we should build on CentOS, but this build will be tested only automatically - we can call it as Beta-Release and as users to test is excessively
 - we can also ask Juniper to support TF and test this build with their test suite manually

TSC Election
