Agenda

1. Juniper closed the scope for 21.03. It will be shipped around Q3
2. Nick reached to the owners of the stories and ask them for updates
3. Pradeep will do the multihoming
4. Alex will create a presentation about the lifecycle management of various tungsten elements (like charms, distros, RHOSP, kolla etc.)
5. We want engineers to put updates in JIRA each Friday. One-liners will be enough.
