1/8/2019

Attendees

Casey Cain (LF)

Edward Ting (Lenovo)

Vicky Brasseur (Juniper)

Prabhjot Singh Sethi (ATS)

Joseph Gasparakis (Intel)

Henry Fowler (AT&T)

Frikkie Scholtz (Netornome)

Pieter Jansen van Vuuren (Netronome)

Agenda

- Welcome back!
- Release updates and schedule for the upcoming ones
- TSC Election Status
- Code review of Netronome patches - Status update
    - https://review.opencontrail.org/#/c/47035/

Minutes

- Edward (ET): This the meeting for reviewing blueprints?
    - Joseph (JG): Yes. We'll be doing this every 2-3 weeks.
    - ACTION: JG will dig up the link to the blueprints & share w/the group
- Status of upcoming releases?
    - Sukhdev is out; anyone else know the schedule?
        - (nope)
    - Need to review this schedule every call
    - ACTION: Vicky to find someone from Juniper to give an update on the releases
        - VMB sent the email; awaiting response; will mail tsc@ with any response
- TSC Election status
    - Uncontested, no election needed
    - Technical Committee is set
    - Community Committee still has an empty seat…?
        - No, has 6 nominations for 5 seats
        - ACTION: Joseph & Casey will verify all nominees qualify, kick off election if needed
    - ARB needs to appoint their own TSC member yet
        - Will wait for ARB membership to be settled
        - Need to wait for Sukhdev to come back, regardless
- Code review of Netronome patches
    - Frikkie Scholtz (FS): What's the timeline for this?
        - Intel was to review but resources left the company
    - JG: This is for the full offload solution, but no vendor is looking for this
        - So will review from POV of not breaking partial offload
        - Getting resources together within Intel but will take a little while longer
        - Partial offload patches in 5.1 main branch; put these in main branch as well? (Yes)
        - JG has a little time, and it's a small patch, so he'll try to have a look at this before next call
