Agenda

- Start the Recording
- We will start by mentioning the project's Antitrust Policy, which you can find linked from the LF and project websites. The policy is important where multiple companies, including potential industry competitors, are participating in meetings. Please review and if you have any questions, please contact your company legal counsel. Members of the LF may contact Andrew Updegrave at the firm Gesmer Updegrave LLP, which provides legal counsel to the LF.

Docker Hub Namespace Migration

- We need to migrate the namespace TF is currently using on Docker Hub to a LF associated project.
 - [Andrey Pavlov](#) will potentially lead this initiative, [Nick Davey](#) working on logistics for delivery.
 - Existing build system should be updated to post containers to the new namespace
 - We should also audit and highlight any "Contrail" named containers and take this opportunity to add a tf-prefix alternative
- This may involve just changing ownership of the TF namespace to LFN – might be Andrey but we need to determine who owns this.

Release Planning for 2022

- Planning for the next TF to commence next week on the Technical Work Stream call. PTL's and release managers should be on this call to coordinate.
- Documentation needs to be a focus for the 21.12/22.06 release
