

# 2019-03-26 Infra WG meeting notes

## Date

26 Mar 2019

## Attendees

- Daniel Pono Takamori
- VM (Vicky) Brasseur (she/her)
- Randy Bias
- Krzysztof (dropped off the call; connection problems?)
- Alex Levine

## Agenda

- Still need a ticket for creating Vexxhost account
- Update on repo migration
- Updates on LFID user creation for adding karma to gerrit
- Update on parallel build setup
- Update on the testing
- Updates on JIRA workflow/ issue import

## Minutes

- Vexxhost
  - Alex says that Andrey will be opening the ticket
    - Ticket to set up the billing and stuff only
  - Alex will follow up on the ticket thing
- LFID user creation update
  - Had a meeting yday with Sukhdev & Bill N at Juniper
  - Workflow on Juniper JIRA has changed
    - Planning to import that workflow into the TF JIRA
    - Bill will share info with pono
      - export Juniper JIRA workflow so it can be imported to jira.tungsten.io
    - VMB: This will need to be documented
      - pono can ping Bill for docs
  - Are tickets that will need to be re-imported to TF JIRA
- Update on parallel setup
  - Working on setting up own setup for Prognatic
  - Existing Juniper stuff won't stand up
  - Instead using Ansible + Contrail container + Bring Your Own VM instructions
  - Now building rpms finally, yay
  - Next is trying to figure out how to deal with artefacts
  - RLB on how this is viewed inside Juniper
    - 2 phases: Separation (stand alone TF) & Integration (TF into Contrail)
    - Working to figure out the Integration yet
    - Stressing that Separation is separate from Integration, ensures separation will happen rather than be delayed
  - A great deal of conceptual talk about the parallel build process, standalone TF, Juniper's relationship with TF's build process, etc.

## Action items

- VM (Vicky) Brasseur (she/her) Ping Andrey for the Vexxhost ticket
- VM (Vicky) Brasseur (she/her) Get meeting update for 8AM all the time & change name from OpenContrail & change host from Greg
- VM (Vicky) Brasseur (she/her) Send reminder for people to show up to this call (Randy actually did this one)
- Daniel Pono Takamori Ping Bill for JIRA workflow documentation when he sends workflow export stuff
- Alex: Document what will be required to fix (automate) the testing for TF
- Alex: Follow up with the ticket for Vexxhost (helpdesk@tungsten.io)
