Minutes

- TSC Chair election is almost complete (10 of 11 have voted) but we need the ARB rep to vote and break a tie
 - o Per Sukhdev Kapur, Michael Henkel is the ARB member who was unable to make the call (will follow up)
- · With ONS next week, move to cancel the meeting
 - TSC agrees: no meeting next week
- Reminder from Casey, since Edward is stepping down as PTL for the Docs group, TSC must approve committers
 - Per Edward Ting, yesterday in the Docs WG meeting, VM (Vicky) Brasseur (she/her) nominated another person to be PTL for the Docs WG
 - o If both people nominated are already committers, the Docs WG can vote for the PTL
- The TSC needs to elect a member to the TAC
 - o Currently, Greg is listed as the rep
 - This needs to be decided / maintained by the TSC
 - Randy Bias suggests delaying until TSC chair is completed
- JIRA migration status
 - In progress
 - o Per Daniel Pono Takamori, workflow needs community input (being worked out between Juniper and Daniel)
 - Need to settle on workflow before importing tickets etc.
- JIRA template feedback
 - Sukhdev Kapur is working on aligning workflows and templates to JIRA
 - Community feedback is needed on the various templates
- · Marketing WG is focusing on community metrics, so TSC should review and provide feedback
- Suggestion from Randy Bias: the marketing & infrastructure WGs should provide a readout to the TSC for their weekly meetings for review
